## Building Update #113

December 12, 2023

**Christmas Offering:** You should have received a **Christmas Offering** envelop in the mail recently along with Pastor Jenn’s Christmas Letter. The **Christmas Offering**, as she says in the letter, will go directly to paying Building Project expenses. AR has been successful in moving the project forward with internal contributions and is why we are soooooo close to ground breaking! The **Christmas Offering** will be received during worship this Sunday, December 17th. You can also give online!!!

**Project Notes:** To date, AR has paid **\$1,020,590** in project expenses which include **100%** of Land cost (12 acres), **94.6%** of Civil Engineering fees and **57.0%** of Architectural & Engineering (A&E) fees. During the past **4** years since the restart of the Building Program, AR has been able to fund the project internally thanks to your generous contributions! On the site permitting front, AR has received two important approvals in the past 24 hours (Land Disturbance & SCDOT Driveway Encroachment)! Let’s hear it for Cypress Engineering, LLC!!! Way to go! The next big expense coming our way is for actual building plans which will be completed by Dec. 31st. When completed, AR will owe a balance of **\$98,460** to *Equip Studio*. Wouldn’t it be great have this **PAID-IN-FULL!!!**
